Landscape Atlas of
Latvia)

PERISCAPE= periscope + landscape

It is for...

- People with disabilities
- Children, seniors, and people with health issues/mental obstacles
- Tourism, cultural heritage

What are we doing?

Making periscope solution for viewing towers with interactive elements

Who are we involving?

- Riga Technical University students,
- Ministries
- Engineers and designers
- Municipalities of viewing towers areas
- Associations for people with disabilities (Apeirons, EPIK)

1st step

**Choose the prototype area -
example tower**

2nd step

**Announcing a student competition for a
technical and design solution for periscope
idea**

3rd step

**Involve ministries and organizations
administrating funding programs**

Together, let's transform landscapes into accessible treasures, ensuring that everyone, regardless of ability, can experience the beauty of nature through innovation and inclusivity.
