**PANORAMA
LL-000231**

Ventspils Museum will create a viewing point within the framework of the PANORAMA project by installing binoculars-telescopes on the tower of the Ventspils 46th Coastal Battery, which will complement the popular sightseeing object of Ventspils Museum visitors and other interested parties.

An information stand will be installed with information about the command post and gun positions.

The planned costs of the project are EUR 18,113.

PANORAMA LL-000231

April 28, 2025

Documents (specifications) are currently being prepared for the procurement procedure for the purchase and installation of the binoculars.
