PLĀNOŠANAS
REĢIONS

PMM meeting 15.07.25

Today's topics

(13:00 – 17:00)

- **1) Presentations by each of the partners:**
 - on investment activities so far, incl. presentation of pier sketches
 - overview on desk-search of lakes in each partners' area
 - changes needed for rivers' data published on riverways.eu
 - activities for Period 3 & 4
- 2) Presentation by Regional partners (KPR, RPR, VPR UR, GRP) on accessibility inspections carried out so far + key findings + upcoming schedule**
- 3) Presentation by VPR and UT on the schedule of watertourism operators' training material, incl. main topics**
- 4) Discussions on project large-scale watertourism & Green&Safe concept local events**

- Status with 2nd partner reports & modifications

- Project modifications: none in Period 2

Partner reports, all approved, last approval for Setomaa on 11.07:

0-cost report: DKN, Liepāja, Kuldīga, Ķekava, Ādaži, Valmiera, Madona, Valka, Limbaži, Otepää, Luunja, Antsla

Reports with costs: KPR, RPR, VPR, UT, SATT, GRP, Jūrmala, Setomaa, Voru

- Investments – pier sketches

NVO Apeirons, Riverways II projekta

Vides pieejamības eksperts Jurgis Briedis

E-pasts: jurgis@apeirons.lv

Tel.: +371 26 353 728

Ieteikumi

Objekts: Grobiņa, Ālandes upe (investīciju vieta Riverways II projekta ietvaros)

1. Grobiņas

1.1 Situācijas apraksts

Grobiņa, pie Raiņa ielas pieguļošās ūdenstīlpnes plānots uzstādīt pontonu iekāpšanai laiva, kas paredzēts piemērots cilvēkiem ar kustību traucējumiem.

1.2 Autostāvvietā

Pie ūdenstīlpnes ir autostāvvietas, taču nav iezīmēta neviena stāvvietā cilvēkiem ar invaliditāti. Esošajā situācijā nepieciešam iezīmēt stāvvietu cilvēkiem ar invaliditāti ar atbilstošu vertikālo apzīmējumu un papildzīmi.

1.3 Piekļuve ūdenstīlpnei

Ūdenstīlpne atrodas tiešā ceļa tuvumā, līdz ar to uzbraukšana uz laipas sāksies pie paša ceļa un papildus uzlabojumi, celiņa veidošana, nav nepieciešama.

1.4 Laivu piestātne

Veidojot laivu piestātņi ar pontoniem, jāparedz iespēju iekāpt laivā samazinot iespēju iekrist ūdenī vai kā citādi pakrist. Jāpatur prātā, ka risinājumam jābūt pēc iespējas universālākam, tas nozīmē, ka lielākā daļa lietotāju ar kustību traucējumiem nepārvietosies ratīņkrēslā.

Viena no iespējām ir veidot pontonā kabatu, kur var iebraukt ar laivu, piefiksēt to no divām pusēm. Pārī šai kabatai tiek uzstādīts atbalsta rokturis, kas palīdz arī cilvēkiem ar līdzsvara traucējumiem iekāpt laivā.

Lai atvieglotu iekāpšanu laivā cilvēkiem, kas pārvietojas ratīņkrēslā, var domāt par pagriežama krēsla uzstādīšanu uz pontona. Tas nozīmē, ka cilvēks pārsēžas no ratīņkrēsla uz krēslu, kas atrodas virs pontona klāja, kad cilvēks ir pārsēdies, asistents šo krēslu pagriež virs laivas, līdz ar to cilvēku ir vieglāk un drošāk iesēdināt laivā.

Piemērs laivu piestātnei

Iekāpšanas platformai vismaz vienā pusē jāparedz ne mazāku kā 1500 mm platu zonu. Pontonam jāparedz marga gar manevrēšanas zonas ārējo malu.

Inspections by KPR

More accessible winter swimming site at Beberliņi waterbody

- Floating hut on a pontoon (to change and safely get into the water)
 - Ramp
 - Improvement of path to get to the ramp
- 
- A topographic map showing a river area with elevation contours. The map includes labels such as 'N', 'koks', and '40'. Elevation values like 6.17, 6.41, 6.21, 6.42, 6.99, 6.98, 7.85, 9.27, 9.87, and 9.25 are marked. The map also shows a network of lines representing paths or boundaries.

Still to inspect: Kuldīga

2 piers on the Venta River coast

- one multifunctional pier in Skrunda
- The second – a smaller one, in Raņķi
- Accessibility improvements at resting areas at both piers
- Accessible, 16km long boating route

f

t

s

Accessible from two locations – one boardwalk, the shortest, is located in the end of Draudzības Street – although here is no parking lot and WC accessible to wheelchair users – still the beach can be reached and it might appeal to those who enjoy lazy walks and silence.

The second is the central one, in the end of Kapteiņa Zolta Street, with spacious parking lot, wide concrete path to the waterline, spacious changing cabin and Rescue Station. WC is accessible, yet there is quite a steep ramp – 11 degrees.

Floating wheelchair services are available at the Kauguri beach every day free of charge from 10:00 till 20:00, but should be booked in advance by phone +371 29103212 or e-mail: peldrati@gmail.com.

- Training of water tourism operators

Activity 2.3, now – 04.26

Key topic - how to serve people with disabilities

1 set of events (1 face-to-face/1 online) +1 training session in the nature with clients in each region (one set of event in EE). Approx 20-25 participants

Easy to use basic training material (i.a. best practice model) shall be jointly worked out by partners

Erasmus+ project MindTour handbook of guidelines for making tourism services more accessible for people with mental impairment

UT: 4180 EUR (training & joint development)

VPR: 3500 EUR (design & joint development) and 2000 EUR (training of operators in Vidzeme)

KPR: 2000 EUR (training of operators in Kurzeme)

RPR: 2000 EUR (training of operators in Riga region)

UT – to coordinate joint work of partners on service design & development of the training concept & training material

- Large-scale & local events autumn 2025 +

A photograph of a person in a wheelchair, seen from behind, sitting on a wooden boardwalk. The boardwalk has a wooden railing and leads towards a large body of water under a blue sky with clouds. The person is wearing a light grey hoodie and dark pants. The background shows a wide expanse of water, some distant land, and a line of trees on the left.

Thank you 😊
